

Community Grant assessment update.

All grant applications received by the deadline that meet the criteria will be assessed.

The process is entirely confidential and will be dealt with In Camera.

The role of the Finance Committee is to confirm eligibility and that the criteria have been met. The Finance Committee has assessed the applications and made the following observations:

- The Finance Committee suggested that match funding should be 75% FTC – 25% Applicant.
- The current Community Grant scheme has a fund of £10k to allocate.
- Full Council must decide which of the applications below they wish to fund in this round. Applicants who meet the criteria but are unsuccessful can reapply to the next round of grants (likely to be Sept '26). The Grants subcommittee assessed all the application and have made the following recommendations:
